Dear SEU Community,

On Tuesday, October 27, Saint Elizabeth University was notified that a commuter student who was last on campus October 19 had tested positive for COVID-19 on October 26.

Upon learning this, SEU immediately contacted the Health Department and implemented the University's COVID-19 protocols and procedures. Impacted faculty and students have been notified and quarantine recommended since the student's last day on campus was within the 14-day window.

As we continue to remain vigilant during the coming months, the entire SEU community is reminded:

- Please do not come to campus if you are not feeling well.
- Students must complete the #CampusClear first thing every morning and are required to show to faculty prior to entering any classroom.
- Faculty and staff must complete the [Daily Self Checklist](#) and [Daily Contact Tracing](#) forms.
- If you are exposed to or diagnosed with COVID-19, students should immediately contact Health Services, and similarly if faculty or staff are exposed or diagnosed with COVID-19, immediately contact Human Resources.
- Continue to observe social distancing policies, mask wearing and proper handwashing hygiene.

In addition, all members of the campus community are reminded of the University's commitment and responsibility to maintaining strict confidentiality.

Thank you for your focus on helping to keep the community safe and healthy.

Sincerely,

Helen J. Streubert
President
