Dear SEU Community:

After careful review of New Jersey Governor Murphy’s Executive Order No. 175, which require in-person instruction for science or health science laboratories and "hands-on" classes, SEU is committed to providing a safe and healthy environment for students who have been notified of required in-person instruction for science or health science laboratories and "hands-on" classes, while also meeting the needs of the broader community.

As the health and safety of our community is our primary concern, the information below is intended to address some of the most frequently asked questions. I ask you to read the information provided carefully and reach out to the appropriate contact if you have additional questions.

### Return to Campus Policy and Procedures

Faculty and staff who identify as at-risk for COVID-19 must follow the process outlined in the Return to Campus Policy and Procedures."
