## V. Databases in Ebsco

- A. **Academic Search Complete**: big broad database covering all subjects with full text.
1. Search other databases such as **PsychInfo** or **ERIC** simultaneously on Ebsco (click *Choose Databases*).
  2. Select the search you want to do (subject, keyword etc.) and click search.
    - a. Use asterisk (\*) as a wildcard for other letters (ie: teen\* = teens, teenage, etc.).
    - b. Use quotes (") to search terms as a phrase (ie: "drug abuse").
    - c. Limit results to a specific data range, or to peer reviewed articles.
  3. Databases outside Ebsco: **ProQuest**; **Science Direct**.

## B. The Open Record in Ebsco.

1. Abstract and subject headings available.
2. Full Text or OCLC Link resolver if available.
3. Print, Email, or Cite the record in whatever citation format you use.

## VI. Searching for full text

- A. If full text access provided in a database you are in, click on the **OCLC Link Resolver** link.
1. This should take you directly to the article.
- B. If you are searching for full text access to a specific article, click on the **Search Articles by Title** link below the catalog on the home page.

1. On the next screen, enter the article title, the title of the publication, and click search.
2. If we have full text access to the article, it should appear directly from this search.

## VII. Evaluating information.

- A. Know your source (difficult in our digital world).
- B. Is the source peer reviewed?
- C. Currency vs. Accuracy (Depth of information).
1. Current sources may not be well researched.
  2. Well researched sources may be dated (research takes time).
- D. Does the source have a bibliography? Has the work been cited? How many times (check Google Scholar)?
