

New Course Announcement

UAS Unmanned Aerial Systems: Drone Overwatch

Learn a New Skill

Summer Semester

Online / Hybrid 5/18-6/27

Course Overview

Intro to Unmanned Aerial Systems is a comprehensive course designed to equip students with the foundational knowledge and skills necessary to operate small unmanned aircraft systems (sUAS) safely and effectively. This course will provide an in-depth understanding of drone regulations, flight operations, and practical applications in various fields, including public safety and 3D mapping. Upon successful completion of this course, participants will be able to demonstrate a better understanding of drones, regulations and airspace awareness.

Saint Elizabeth University is proud to offer this innovative new course

Outside participants are welcome

Certificates will be provided upon course completion
